

OUTFIELD RANGE NEW SMALLER GRANULE

Conventional release – mimax granular fertilizers

WHY OUTFIELD FERTILIZERS

- › New **Mimax Granule**, giving greater flexibility of application rates
- › Granular fertilizers that release nutrients over a 6-8 week period
- › Dependable and consistent performance
- › Improved uniformity and accuracy of application
- › Advanced granule size spectrum compared to traditional outfield fertilizers
- › New **BiO** range contains seaweed and humates
