

# MAGNETIZE

Chelated liquid Iron to **enhance turf colour** and correct Iron deficiencies

## WHY MAGNETIZE

- › Can be used any time of year
- › Unaffected by soil pH
- › No Sulphur contribution, reducing Black Layer potential
- › Long lasting, typically 4 to 6 weeks
- › Enhanced performance when turf is actively growing

With its combination of leaf penetrant and EDTA chelation, **Magnetize** is protected from lock up in the soil and more readily available to the plant. An initial steady uptake will result in a green-up response over a 24/48 hour period, followed by continued absorption through the root system. **Magnetize** can be applied any time of year, however best response will be when the turf is growing particularly through the Spring, Summer and Autumn.

### Product Detail

Contains: 5% Iron (Fe) chelated by EDTA  
Enhanced leaf penetrants

Pack size: 5 litres

Pack coverage: 2,500 sq.m

RT order code: 0115238/05

| APPLICATION RATES |                |                   |
|-------------------|----------------|-------------------|
| Magnetize         | Water Volume   | Area              |
| 1 litre           | 20-25 litres   | 500m <sup>2</sup> |
| 20 litres         | 400-500 litres | 1 ha              |

| RECOMMENDED PERIOD OF USE |     |     |     |     |     |     |     |     |     |     |     |
|---------------------------|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|
| Jan                       | Feb | Mar | Apr | May | Jun | Jul | Aug | Sep | Oct | Nov | Dec |

Use plant protection products safely. Always read the label and product information before use.

# MAGNET DYNAMIC LITE

Micro-granular, long lasting Iron **turf colour enhancer**

## WHY MAGNET DYNAMIC LITE

- › Extremely uniform granule, ensuring even coverage
- › Dual source Iron (8.6%Fe) gives extended phased release up to 16 weeks
- › High potash (14%K<sub>2</sub>O) to enhance plant cell turgidity
- › Relatively low Nitrogen assists plant metabolic response without forcing soft growth

### Product Detail

Contains: 3% Nitrogen (N),  
14% Potash (K<sub>2</sub>O) and  
8.6% Iron (Fe)

Pack size: 20 kg

Pack coverage: 500 sq.m

RT order code: 0115234/020

| APPLICATION RATES                                   |                     |                     |
|---|---------------------|---------------------|
| Area of use   | Magnet Dynamic Lite | Area                |
| Golf greens & tees, bowling greens, cricket squares | 20kg                | 500m <sup>2</sup>   |
| Golf fairways, sportsfields                         | 200kg               | 5,000m <sup>2</sup> |

| RECOMMENDED PERIOD OF USE |     |     |     |     |     |     |     |     |     |     |     |
