

# Golf & Fine Turf Mixtures

Given the UK changing weather patterns new and existing golf courses are under considerable pressure to provide a uniform playing surface for 12 months of the year.

The Mascot Grass Seeds range has been formulated for use on all levels of greens management regimes to ensure the highest quality surface at all times.

The Mascot range has a number of formulations to include soil and sand based greens which, due to the present level of use, all require regular over-seeding.

## R1 Greenkeeper

|     |               |                             |
|-----|---------------|-----------------------------|
| 30% | Calliope      | Chewings Fescue             |
| 30% | Greensleeves  | Chewings Fescue             |
| 20% | Helena/Turner | Slender Creeping Red Fescue |
| 20% | Egmont        | Browntop Bent               |

Sowing Rate:  
Up to 35gms/m<sup>2</sup>

Mowing Height:  
Down to 5mm

Available in:  
10kg bags

**A balanced combination of Chewings and Slender Creeping Red fescue with Browntop Bent for golf and bowling green situations**

- \* Excellent year round colour
- \* Careful balance of cultivars maximises density and uniformity
- \* High drought and wind chill tolerance
- \* Tolerant to close mowing

MASCOT

## R101 Premier Greenkeeper

|     |               |                             |
|-----|---------------|-----------------------------|
| 50% | Greensleeves  | Chewings Fescue             |
| 20% | Calliope      | Chewings Fescue             |
| 10% | Helena/Turner | Slender Creeping Red Fescue |
| 10% | Cezanne       | Slender Creeping Red Fescue |
| 10% | Egmonttwo     | Browntop Bent               |

Sowing Rate:  
Up to 35gms/m<sup>2</sup>

Mowing Height:  
Down to 4mm (summer),  
8mm (winter)

Available in:  
10kg bags

**A combination of superior cultivars designed to produce a high quality surface for golf and bowling**

- \* Extended growth pattern in spring and autumn
- \* Excellent year round colour
- \* Very high drought and wind chill tolerance
- \* Maintains a uniform dense sward
- \* Improved winter wear and Fusarium tolerance

MASCOT

## R2 Traditional Greens

|     |              |                 |
|-----|--------------|-----------------|
| 45% | Belleaire    | Chewings Fescue |
| 35% | Greensleeves | Chewings Fescue |
| 20% | Egmont       | Browntop Bent   |

Sowing Rate:  
Up to 35gms/m<sup>2</sup>

Mowing Height:  
Down to 5mm

Available in:  
10kg bags

**A conventional Fescue/Bent mixture for use on bowling greens and golf greens**

- \* Tolerant to close mowing
- \* Provides a good compact sward
- \* Achieves good year round colour
- \* Good density with extended winter growth

MASCOT

## R103 Bent Renovation

|     |          |               |
|-----|----------|---------------|
| 50% | Egmont   | Browntop Bent |
| 50% | Highland | Browntop Bent |

Sowing Rate:  
6-12gms/m<sup>2</sup>

Mowing Height:  
Down to 4mm (summer)  
8mm (winter)

Available in:  
10kg bags

**A more economically sensitive mixture designed for regular overseeding of golf and bowling greens**

- \* Produces a uniform dense sward
- \* Good year round colour
- \* Improved spring and autumn performance
- \* Regular over seeding reduces *Poa Annua* ingress

MASCOT

## R105 Supreme Greenkeeper

|     |            |               |
|-----|------------|---------------|
| 50% | Egmont     | Browntop Bent |
| 35% | Greenspeed | Browntop Bent |
| 15% | Manor      | Browntop Bent |

Sowing Rate:  
6-12gms/m<sup>2</sup>

Mowing Height:  
Down to 4mm (summer),  
8mm (winter)

Available in:  
10kg bags

A mixture of high quality cultivars designed for seeding of new greens and the overseeding and renovation of existing golf and bowling greens

- \* Very high-density ratings and tolerant to close mowing
- \* Excellent wear and recovery characteristics
- \* Produces a high quality compact and uniform playing surface
- \* Regular over seeding reduces Poa Annua ingress

MASCOT

## R116 Fine Rye Greens Renovation

|       |               |                             |
|-------|---------------|-----------------------------|
| 32.5% | Greensleeves  | Chewings Fescue             |
| 20%   | Helena/Turner | Slender Creeping Red Fescue |
| 20%   | Lanai         | Slender Creeping Red Fescue |
| 10%   | Ace           | Perennial Ryegrass          |
| 10%   | Greenway      | Perennial Ryegrass          |
| 7.5%  | Egmonttwo     | Browntop Bent               |

Sowing Rate:  
30gms/m<sup>2</sup>

Mowing Height:  
Down to 4mm (summer),  
8mm (winter)

Available in:  
10kg bags

Ideal for use where there is a high level of use such as public golf courses or bowling green ends

- \* Extremely wear tolerant with good recovery characteristics
- \* Tolerant to close mowing
- \* Improved density through autumn and winter
- \* Excellent shade tolerance

MASCOT

## R9 Premier Tees Renovation

|     |           |                    |
|-----|-----------|--------------------|
| 35% | Greenway  | Perennial Ryegrass |
| 30% | Sauvignon | Perennial Ryegrass |
| 20% | Greensky  | Perennial Ryegrass |
| 15% | Dylan     | Perennial Ryegrass |

Sowing Rate:  
25-35gms/m<sup>2</sup>

Mowing Height:  
Down to 5mm

Available in:  
20kg bags

Designed for intensively used golf tees

- \* Rapid establishment at lower temperatures
- \* Reduction in the formation of crowns makes it ideal for tees
- \* Extremely persistent during heavy wear with excellent root establishment
- \* Produces a fine leaf and is tolerant of close mowing
- \* Provides year round colour even under stress

MASCOT

## R117 Greens Fescue Renovation

|     |               |                             |
|-----|---------------|-----------------------------|
| 25% | Calliope      | Chewings Fescue             |
| 25% | Greensleeves  | Chewings Fescue             |
| 25% | Helena/Turner | Slender Creeping Red Fescue |
| 25% | Cezanne       | Slender Creeping Red Fescue |

Sowing Rate:  
15-20gms/m<sup>2</sup>

Mowing Height:  
Down to 4mm

Available in:  
20kg bags

Designed and formulated for sustainable maintenance regimes where a predominant fescue sward is required. Ideal for links-style golf greens

- \* High shoot density and fineness of leaf creates a superior visual and uniform surface
- \* Outstanding drought and wind chill tolerance
- \* Maintains excellent colour year round
- \* Will tolerate mowing below 4mm for short periods

MASCOT

## R4 Golf Tees & Fairways

|     |               |                             |
|-----|---------------|-----------------------------|
| 25% | Greenway      | Perennial Ryegrass          |
| 25% | Ace           | Perennial Ryegrass          |
| 20% | Greenknight   | Smooth-stalked Meadowgrass  |
| 15% | Greensleeves  | Chewings Fescue             |
| 10% | Helena/Turner | Slender Creeping Red Fescue |
| 5%  | Egmont        | Browntop Bent               |

Sowing Rate:  
Up to 30gms/m<sup>2</sup>

Mowing Height:  
Down to 7mm

Available in:  
20kg bags

Designed to produce a balanced mixture with high resiliency to wear and divot damage on golf tees and fairways

- \* Produces a dense compact sward with fine leaves
- \* Colonises worn areas well by the use of rhizomatous grasses
- \* Very drought and wear resistant
- \* Produces a uniform appearance

MASCOT

## R5 Golf Fairways & Rough

|     |               |                            |
|-----|---------------|----------------------------|
| 40% | Calliope      | Chewings Fescue            |
| 25% | Greenvie      | Strong Creeping Red Fescue |
| 20% | Helena/Turner | Chewings Fescue            |
| 15% | Greensleeves  | Chewings Fescue            |

Sowing Rate:  
30gms/m<sup>2</sup>

Mowing Height:  
Down to 10mm

Available in:  
20kg bags

A 100% Fescue blend ideal for sustainable maintenance programmes

- \* Suitable for use in cooler situations where wind-chill can be a problem
- \* Highly drought resistant, high tolerance to shade
- \* Quick establishment with high shoot density
- \* Improved disease tolerance
- \* Reduced water and nutritional requirements

MASCOT

## R6 Fescue Rye Fairway

|     |               |                             |
|-----|---------------|-----------------------------|
| 35% | Greenvie      | Strong Creeping Red Fescue  |
| 20% | Helena/Turner | Slender Creeping Red Fescue |
| 20% | Greensleeves  | Chewings Fescue             |
| 15% | Greenway      | Perennial Ryegrass          |
| 10% | Dumas         | Hard Fescue                 |

Sowing Rate:  
30gms/m<sup>2</sup>

Mowing Height:  
Down to 12mm

Available in:  
20kg bags

**A comprehensive mixture for fairways and general amenity areas where quick establishment is required**

- \* Produces a very uniform and hard wearing surface
- \* Rapid establishment producing a compact sward
- \* Very drought tolerant
- \* Good tolerance to close mowing
- \* Increased recovery from divot damage
- \* Reduced maintenance requirements

MASCOT

## R127 Golf Links & Rough

|       |               |                             |
|-------|---------------|-----------------------------|
| 25%   | Helena/Turner | Slender Creeping Red Fescue |
| 25%   | Belleaire     | Chewings Fescue             |
| 20%   | Greenvie      | Strong Creeping Red Fescue  |
| 15%   | Dumas         | Hard Fescue                 |
| 12.5% | Nordic        | Hard Fescue                 |
| 2.5%  | Egmont        | Browntop Bent               |

Sowing Rate:  
30-35gms/m<sup>2</sup>

Mowing Height:  
Down to 12mm

Available in:  
20kg bags

**Formulated specifically for coastal situations where salt and wind burn can affect sward quality**

- \* Extremely high drought and disease tolerance
- \* Reduced water and nutrient requirements
- \* Reduced maintenance requirements
- \* Good recovery from wear
- \* Maintains a dense compact sward with good year round colour

MASCOT

## R128 Fescue Bent Fairway

|     |           |                             |
|-----|-----------|-----------------------------|
| 30% | Helena    | Slender Creeping Red Fescue |
| 25% | Greensky  | Perennial Ryegrass          |
| 20% | Greenvie  | Strong Creeping Red Fescue  |
| 20% | Belleaire | Chewings Fescue             |
| 5%  | Egmonttwo | Browntop Bent               |

Sowing Rate:  
20-35gms/m<sup>2</sup>

Mowing Height:  
Down to 15mm

Available in:  
20kg bags

**A comprehensive mixture for fairways and general amenity areas giving quick establishment and recovery from wear**

- \* Produces a dense compact sward reducing competition from broadleaf weeds
- \* Establishes quickly and is extremely hard wearing
- \* Good drought and disease tolerance
- \* Attractive fine leaf appearance with good year-round colour

MASCOT

## R18 Shade/Drought Tolerance

|     |               |                             |
|-----|---------------|-----------------------------|
| 20% | Greenway      | Perennial Ryegrass          |
| 20% | Sabrina       | Rough Stalked Meadow Grass  |
| 20% | Sibir         | Tufted Hair Grass           |
| 20% | Helena/Turner | Slender Creeping Red Fescue |
| 15% | Mystic        | Strong Creeping Red Fescue  |
| 5%  | Egmont        | Browntop Bent               |

Sowing Rate:  
30gms/m<sup>2</sup>

Mowing Height:  
Down to 20mm

Available in:  
20kg bags

**A dedicated shade mixture that has been tested over the last seven years for use under tree line canopies**

- \* Environmentally sustainable with slower re growth reducing cutting frequencies
- \* Excellent drought tolerance
- \* Improved winter persistency
- \* Quick to establish

MASCOT

## R19 Rhizomatous Tall Fescue

|     |                  |                            |
|-----|------------------|----------------------------|
| 25% | Grande/Grande II | Rhizomatous Tall Fescue    |
| 20% | Scorpiones       | Tall Fescue                |
| 20% | Greenvie         | Strong Creeping Red Fescue |
| 20% | Applaud          | Perennial Ryegrass         |
| 15% | Neruda           | Perennial Ryegrass         |

Sowing Rate:  
30gms/m<sup>2</sup>

Mowing Height:  
Down to 20mm

Available in:  
20kg bags

**A mixture formulated for use on golf tees, fairways, semi-rough and bunker surrounds or areas of high wear**

- \* Extremely drought and heat tolerant
- \* Reduced water requirements
- \* Improved re-growth
- \* Excellent recovery from wear

### STRAIGHTS

Selected varieties of Creeping Bent and Brown Top Bent grasses from the Rigby Taylor portfolio are available separately or can be combined to form a bespoke mixture.

#### Penn A1 (Creeping Bent)

A high quality cultivar selected for use where green surfaces require a uniform dense sward.

- \* Fast establishment.
- \* Aggressive growth pattern helps recovery from wear.
- \* Maintains year round colour.
- \* Excellent heat and cold tolerance making it ideal for U.K. climate.
