

# LINEOUT

# FOAMCHECK

Highly visible **foam bout marker** that allows operators to mark out treated areas

**Spraying aid** with fast action against products that foam when filling spray tank, especially effective with wetting agents

## WHY LINEOUT

- › Stable and highly visible foam
- › Quickly dissipates following spray application
- › Safe to grass sward
- › Compatible with all types of equipment

## WHY FOAMCHECK

- › Rapid de-foaming action
- › Especially effective when using wetting agents
- › Reduces spray tank filling time

### How Lineout works

**Lineout** is an effective and economical answer to the problem of spray overlapping and missed areas. **Lineout** produces a distinctive temporary covering of small foam blobs that enables sprayed areas to be marked out accurately but which quickly dissipate. The highly visible and stable foam produced is effective at marking treated areas, so reducing the risk of overlapping. Optical brighteners have also been added to **Lineout** to increase the visibility of markers in twilight periods.

### How Foamcheck works

Excessive foam production can be a problem when preparing amenity sprays, particularly when using highly concentrated solutions or those that contain surfactants e.g. wetting agents. Whilst the foam itself is generally harmless, it may give problems in preventing spray tanks from being filled properly or the equipment being accurately calibrated.

When **Foamcheck** is added to the spray tank, forces of attraction within the foam are broken and the surface tension of the solution is significantly reduced, resulting in rapid foam knockdown whilst also preventing the build-up of further foam.

### Product Detail

Pack size: 1 litre  
 Pack coverage: Variable  
 RT order code: 0420202/01

APPLICATION RATES	
Lineout	Water Volume
1 part	125 parts

Use plant protection products safely. Always read the label and product information before use.

### Product Detail

Pack size: 1 litre  
 Pack coverage: Variable  
 RT order code: 0420200/01

APPLICATION RATES	
Spray Tank Capacity	Foamcheck
300-400 litres	1-2 squirts

Use plant protection products safely. Always read the label and product information before use.
