

Rigby Taylor
Lawn Sand

moss control

NEW
TO THE RANGE

Micronised, dual action fertilizer and moss control with rapid green up

WHY Micronised Lawn Sand

- Dual action fertilizer and moss control, giving a rapid green-up
- Grass growth encouraged to infill bare areas left after moss control
- Acidifying effect helps deter earthworm casting
- Ferrous sulphate will help harden turf against turf grass diseases e.g. Fusarium Patch
- No requirement for PA Certificate

How Lawn Sand works

Micronised Lawn Sand is a mini-granular lawn sand formulation for moss control in sports and amenity turf areas, and domestic gardens. Control moss and promotes turf growth which will then rapidly infill the bare areas left after moss removal.

GreenForce

feed, weed and moss control

NEW
TO THE RANGE

Triple action micronised feed, weed and moss killer

WHY GreenForce

- Triple action fertilizer – weed and moss control, plus a rapid green-up
- Grass will rapidly regrow to fill bare areas left after weed and moss removal
- Acidifying effect helps deter earthworm casting
- Will help harden turf against turf grass diseases e.g. Fusarium Patch and enhance colour
- No requirement for PA certificate

How GreenForce works

Greenforce is a micronised compound fertilizer for weed and moss control in sports, amenity turf areas and domestic gardens. Controls problem weeds, moss and promotes turf growth which will then rapidly infill the bare areas left after moss removal.
