

LINE MARKING APPLICATORS

Technically advanced walk behind spray machines and Transfer Wheel Markers are available to suit a range of budgets. Each machine has specific benefits that will appeal both to the high-end professional clubs and those in the lower league and at grass roots level.

iGO Advance

The perfect partner for Impact system ready-to-use paints

Consistent application enables accurate costing per pitch

High pressure, pump delivery system

Effortless to operate

Finger tip on/off solenoid valve and ski for precision

Handle located, disc lift mechanism for ease of operation

Pre-drilled spacer holes for easy and quick line width changes

Pneumatic tyres and non-corrosion chassis

Long-life removable battery, LED charge indicator and battery life indicator

Perfectly balanced for ease of movement on different surfaces

Use with 10 litre drums or 5 litre Eco-Bags

Optional 18 litre paint pod for applying dilutable concentrates also available

iGO Mini

Compact marker for 5 litre drums, perfect for stadiums or grounds with one or two pitches

Discs can be either front- or side-mounted

Lightweight and effortless to operate

Compact and easily folded for transport/storage

Finger tip on/off, no drip solenoid valve controls

High-pressure pump for consistent paint flow

Long-life, removable battery

Pneumatic tyres and non-corrosion chassis

Glider

The robust spray marker for Impact ready-to-use paints

Can carry 2 x 10 litre packs of Impact paint

Delivers consistent, efficient, effective marking of multiple pitches

Perfectly balanced for ease of movement over a range of surfaces

Adjustable handles to suit operator preferences

Powerful, high-pressure pump for consistent paint flow

Long-life removable battery, LED and battery life charge indicators

Pneumatic tyres and galvanised chassis
